Thick patches on his pants.

But there's no one to blame but myself for the Yale Lumber & Coal Co. told us that everything was going up. Yes, the prices on lumber and coal have gone up, and reports go to show that they may advance again at the first of the year, but we are selling at a closer margin than ever before in order to give our customers the lowest prices possible and live. Come and talk with us and see our stock before buying elsewhere.

The life of an editor off reminds us
Honest toil don't bring a chance
More he toils he leaves behind him
Rigger patches on his pants.
On his pants, once new and glossy,
Now are patches of different hues,
All because debtors linger
And won't pay up what is due.
Then let's all be up and doing,
Send in your mite though it be small,
Or when snow of winter strike him
He will have no pants at all.
